

## **GRADUATE – JUNIOR ENGINEER**

### **Job description**

We are looking for a Graduate/Junior Design Engineer to work on various packaging products we develop for our customers.

### **Responsibilities**

- Moulded Fibre Packaging design using SolidWorks 3D software.
- Communicate with customers on their packaging needs, specifications and requirements.
- Set design requirements based on briefs from internal teams and external partners.
- Extensive Knowledge of SolidWorks CAD design for 3D modelling for products and components
- Create 3D tool assembly drawings
- Improve the design of existing products.
- Gather feedback from product users.

### **Requirements and skills**

- Hands-on experience with computer-aided design (SolidWorks) software.
- Experience in the plastic packaging industry as a product designer will be beneficial.
- Set design requirements based on information from internal teams and user research.
- Coordinate with other design team members to ensure consistent and accurate communication.
- Modify and revise existing designs to meet changing customer preferences. Work closely with product engineers to suggest improvements for products and processes.
- Proven experience in all phases of the design process including user research, prototyping, visual design, interaction design, and usability testing
- An intuitive eye for customer needs beyond the obvious
- Excellent attention to detail
- Ability to collaborate with cross-functional team members
- Ability to collect and interpret both qualitative and quantitative feedback
- Time-management skills
- Adaptability

- BSc/MSc in Product Design, Manufacturing Design Engineering or relevant field. Or currently studying for these qualifications
- A well-rounded portfolio of client work, demonstrating a strong understanding of client objectives
- Ability to effectively communicate and persuade around design concepts
- Passion for design; not satisfied with the status quo and always thinking of ways to improve
- Creative problem-solving skills
- Dynamic, creative personality, effective at engaging and influencing a variety of audiences
- Provide assistance to product engineers when needed
- Recommend new tools and technologies by staying abreast of the latest trends and techniques
- Work experience as a Product Designer or similar role

**Job Types:** Full-time, Permanent

**Pay:** £27,000.00-£35,000.00 per year DOE

**Benefits:**

- Company pension
- Free parking
- On-site parking

**Schedule:**

- Monday to Friday

**Ability to Commute:**

- Scunthorpe (required)

**Ability to Relocate:**
