

Maintenance multi skilled engineer

An opportunity has arisen to join a successful manufacturing company, based on Flixborough Industrial Estate.

Omni-Pac Group UK is looking for an experienced mechanically biased engineer to join us on our mission of preserving food and the planet by offering high quality, eco-friendly products and taking advantage of the virtuous recycling loop.

Omni-Pac Group is a world leading manufacturer and supplier of recyclable pulp packaging products, with plants in the UK, Germany and France.

Role and responsibilities:

- Provide a multi skilled maintenance service across the site, covering mechanical, electrical, plumbing and building fabrication
- Provide reactive and proactive service as per requirements to all equipment and to carry out modifications and installations when required, ensuring all work is carried out to a high standard and all mechanical and electrical equipment is running to optimum performance
- Carry out planned PPM on conventional rotary pulp machinery
- Provide technical support/input to projects along with continuously looking to improve equipment efficiencies and cost reduction
- Maintain, repair and calibrate electrical, mechanical and instrumentation plant, optimising both reliability and maintainability
- Complete manual handling tasks as required and make effective use of tools and equipment provided

Qualifications and skills:

- Experience in planned preventative and reactive maintenance regimes for heavy duty machinery
- Knowledge of safe working practices on electrical/mechanical building services
- Experience in fault finding, resolving issues, servicing and maintaining general building fabric work
- Positive team player who also has the ability to work alone and use own initiative
- Strong verbal and written communication skills
- Confident, flexible approach to work, with the ability to respond to many different situations that may arise
- PLC programming experience desirable but not essential

Job specifics:

Hours of work-

Monday-Friday 06:00-14:00 and 14:00-22:00 (weekly rotations)

Salary- £21.63 per hour

Overtime available
